## STUDYING IN THE UPPER SECONDARY SCHOOL

The school year is divided into six periods. One period takes six weeks. A timetable is devised for each period, focusing on certain subjects. A student studies 4 – 6 subjects in one period.

Subjects has been divided into courses that each consist of about 38 lessons. The upper secondary syllabus consists of a minimum of 75 courses. It is possible to complete in two years, maximum four years. The progress in studies is individual.

## THE CURRICULUM - COURSES

There are compulsory and specialisation courses which are same in all schools. Ylivieska upper secondary school has plenty of own applied courses. Applied courses prepare for the matriculation examination, give better knowledge for further studying at the higher level or give a change to diversify hobbies. In the selection of foreign languages are included English, Swedish, German, French and Russia. Different kinds of projects give their own colour in our school work.

### THE MODERN AND PLEASANT ROOMS

The renovation of the school building was finished in 2005. In every classroom we have modern teaching aids and mountings: PC with internet, data projectors, document cameras, DVD/VHS and TV-channels. There are lounges and working rooms for students and teachers. The school has the own library.

### SOCIAL ADVANTAGES

The lunch in the lunchroom of the school is free. Students can use services of the school nurse. The school health care is free too.

It is possible for students to get financial aid to students.

Ylivieskan Vuokra-asunnot Oy helps students who want hire a department.

### COOPERATION

We partner schools in Ylivieska: Music Institute of Ylivieska, Vocational Institute of Ylivieska. Our students can take courses of Music Institute. Students of Vocational Institute can study in our school on take part in the matriculation examination.

We make different kinds of projects association with other schools or partners: musicals, concerts, Taize-projects etc.

Our international activities are for example cooperation with our friend schools and taking part in Comenius-projects.

### OUR AIM IS THE GOOD SCHOOL

Our aim is the school,

- which offers wide all-round education
- which is a safely place for everyone to study
- where the teachers helps students to reach their goals
- where everyone is respected, encouraged and heard
- where prevails the good team spirit, the joy of care and work
- where we will come willingly
